manigreen

2nd EDITION

ManiGreen offers educational programmes, workshops and hands-on activities for schools, families and communities. The activities introduce children and young people to sustainability, creativity, inclusion and active citizenship. Learning happens through play, discovery and active participation.

A SPECIAL MOMENT

The open-air exhibition will open at 10:00 a.m. At 11:00 a.m., ManiGreen will bring to life a participatory installation of Michelangelo Pistoletto's **Third Paradise**, where music, movement and inclusion come together. At the heart of this collective artwork, the IC Parco della Vittoria Orchestra will be joined by a performance from the V.I.P. Dance School and the Mani Bianche Choir, which will interpret the music through sign language. Music, dance, gestures and creativity will come together in a single shared experience.

FOUR WAYS TO EXPERIENCE MANIGREEN

A full day of experiences to observe, transform, include and share, together with associations, universities, institutions and local organisations.

Observation

Transformation

Inclusion

Sharing

THE ACTIVITIES

ManiGreen experiences

Four experiences, one journey: Observation, Transformation, Inclusion and Sharing.

OBSERVATION

GUARDARE IL MONDO - CON OCCHI NUOVI

01	A constellation of possibilities	Professional telescopes and astronomers guide participants in observing the Moon, Saturn, Jupiter and distant stars, connecting wonder, questions and scientific knowledge.	Curated by Associazione Ternana Astrofili
02	Microforests and citizen science	Mobile sensors used to monitor Rome's educational microforests allow participants to explore citizen science, biodiversity and urban renaturalization.	Curated by ECCEMICRO e Sapienza Università di Roma
03	The park through a new lens	A botanical walk to discover trees, soil, wild plants and pollinating insects. The park becomes an open-air scientific laboratory.	Curated by Legambiente
04	All about the sun	Through prototypes and hands-on experiments, participants discover how orientation, shade and materials influence photovoltaic performance. Conversations with experts encourage them to imagine new and innovative uses for solar energy.	Curated by SUPSI

TRANSFORMATION

DAI MATERIALI - A NUOVE POSSIBILITÀ

01	Stories that take root	Roger Olmos' wordless book Cosimo inspires an "augmented" reading experience, followed by a workshop using reclaimed materials and natural elements.	Curated by ABRA
02	Painting in the park	Young artists and future art therapists paint outdoors together with children. Painting and frottage capture the shapes and textures of the natural landscape.	Curated by Accademia di Belle Arti di Roma
03	Recycling in flight	Recycled materials are transformed into personalised flying toys that children can build and test through outdoor play. Wooden games made from reclaimed materials invite further exploration and play.	Curated by CEMEA del Mezzogiorno APS
04	Natural brushes, universal rights	Edible plants and spices become tools for creating a collective artwork. For children aged four and above, the workshop brings together creativity, nature and participation.	Curated by Good Food For All, Fondazione Pistoletto Cittadellarte e Artivazione
05	ScARTI	Cardboard, plastic and industrial waste materials are assembled, dismantled and freely rebuilt. The workshop brings the concept of circularity to life through ever-evolving three-dimensional structures.	Curated by Libelà
06	Kid Kind Zone	Paper becomes a temporary urban oasis designed around kindness. This workshop is coordinated by eleven-year-old Leonardo Mancini.	Curated by SOU Atina

INCLUSION

MANY WAYS - OF BEING TOGETHER

01	Tactile Go	The travelling tactile library invites children to explore books through touch, three-dimensional illustrations and a variety of materials, inviting multiple forms of perception through reading.	Curated by Federazione Nazionale delle Istituzioni Pro Ciechi
02	Sensory area	Adapted balls, sound-based games, tactile objects and materials from the Universal Inclusive Park help make play accessible to people of all abilities.	Curated by Fondazione Tetrabondi
03	Communication means participation	Sign language workshops, alternative communication activities, read-aloud sessions and accessible resources showcase the many ways people can communicate, connect and participate.	Curated by Io Se Posso Comunico
04	A park my way	Botanical exploration and artistic discovery inspire the design of an accessible, tactile and colourful park for children.	Curated by Radici APS
05	Explore, smell, touch	Through touch and smell, participants explore their surroundings and create a sensory map. Two 60-minute workshops are scheduled from 10:30 to 11:30 and from 12:00 to 13:00.	Curated by Radici APS
06	Designing Spaces for Children	Woven installations connect hands-on making with ideas for the cities of tomorrow. Student-designed projects reimagine public spaces through the eyes and needs of children.	Curated by University of Arkansas Graduate School & International Education - Rome Center

SHARING

IDEAS, PEOPLE - AND ACTIONS FOR THE FUTURE

01	Green Pulse	An improvised performance explores the theme of sustainability through sound, rhythm and unexpected interventions, engaging the audience in a collective experience.	Curated by Centro Musicale Muni 8 Musica CEIS Don Mario Picchi
02	Moving sustainably	Two- and three-wheeled bicycles help young people discover safer, more inclusive and more sustainable ways to travel. Presented by FIAB Ruota Libera and Associazione Amibike/Ebike Team Natura e Saporì.	Curated by FIAB Ruota Libera e Associazione Amibike/Ebike Team Natura e Saporì
03	Small actions, big changes	Participants explore the impact of their everyday habits and identify practical actions they can bring home or to school.	Curated by Green School Roma e CmRC
04	Telling the story of ManiGreen	Students use video, photography and live streaming to document activities, participants and learning experiences, helping share the event with a wider audience.	Curated by ITS Rossellini Cine TV
05	Readings that grow with us	Picture books and read-aloud sessions create a shared space for listeners of all ages, bringing the themes of the project into family life.	Curated by Volunteers Nati per Leggere

WE LOOK FORWARD TO SEEING YOU AT MANIGREEN 2026
